

*Curious* about **PHILIPPINE MANGOES?**  
*Come and visit us!*

# Profood Gallery

Mango Museum & Factory Tour

Mango Museum

The Profood Gallery officially opened inside the Profood International Corporation compound in Mandaue City last February 15, 2012.

For a minimal admission fee, the gallery aims to bring in tourists who are curious about the Philippine mango, especially the world-renowned Philippine dried mango, by having exhibits on mango growing and other interesting qualities of the fruit. It also educates people about Profood International Corporation in general: its history, the products it offers, and an overview of how these products are made through exhibits and a factory tour. The gallery has a museum, two small theaters where videos on Profood and the mango fruit are shown, and a one-stop pasalubong giftshoppe showcasing Profood's products and other souvenirs from all over the Philippines.

The Profood group of companies also caters to the tourist industry through its luxury resort, Imperial Palace Waterpark Resort & Spa Cebu, as well as J Centre Mall in Mandaue City.

Fun Area For Picture-taking
